

ALMIRO BRUNELLI NETO

Senior Full Stack Software Engineer

Salvador, Bahia, Brazil +55 (71) 9 9719-3099 mirobrunelli@gmail.com linkedin.com/in/almiro-brunelli

PROFESSIONAL SUMMARY

Software Engineer with over 12 years of solid IT experience, specializing in the modern **Full Stack** ecosystem. Expert in **Java (Spring Boot, Grails)**, **Node.js (NestJS)**, and **Vue.js**, with a strong focus on **Microservices** architecture, scalability, and performance. Proven track record leading the modernization of critical systems, infrastructure automation via **Docker**, and **GitLab CI/CD** pipelines. Committed to technical excellence using **SOLID**, **Clean Code**, and automated testing (**Cypress, JUnit**). Currently pursuing a Postgraduate degree in **Artificial Intelligence**.

TECHNICAL SKILLS

Java (Spring Boot / Hibernate / Grails)

Node.js (NestJS / Express)

Vue.js / Nuxt / TypeScript

Microservices Architecture

REST APIs / Webhooks / WebSockets

Docker Containerization

GitLab CI/CD Automation

SQL (PostgreSQL / SQL Server / MySQL)

NoSQL (MongoDB)

SOLID / Clean Code / Design Patterns

Cypress / JUnit (Automated Testing)

Agile / Scrum Methodologies

Message Queues (RabbitMQ / SQS)

PROFESSIONAL EXPERIENCE

UNEB - University of the State of Bahia

March 2023 – Present

Senior Full Stack Developer

Salvador, BA - Brazil

- Architected and developed scalable government systems using **Java (Spring/Grails)**, **NestJS**, and **Vue.js**.
- Migrated legacy monolithic systems to a **Microservices** architecture, improving system resilience and maintainability.
- Implemented end-to-end CI/CD workflows via **GitLab**, automating deployments across staging and production environments.
- Optimized data management for high-concurrency systems using **PostgreSQL**, **SQL Server**, and **MongoDB**.

UNEB - University of the State of Bahia
IT Specialist & Systems Support

March 2014 – March 2023
Salvador, BA - Brazil

- Managed network infrastructure and provided advanced technical support following **ITIL** frameworks.
- Automated support routines using scripts and service desk management tools.
- Identified systemic bottlenecks proactively, facilitating a strategic transition from support to software development.

EDUCATION

Unyleya
Postgraduate in Artificial Intelligence

2026
In Progress

Estácio
Associate Degree in Systems Analysis and Development

2021 – 2024

UNEB - University of the State of Bahia
Bachelor in Information Systems

2015 – 2019
(Incomplete)

LANGUAGES

Portuguese (Native) | English (Advanced / Professional Proficiency for Technical Documentation & Communication)
